

Federal Retail Pharmacy Program Updates

Sitio web en Español para participantes del programa de vacunas COVID

Oral antivirals program

No additional action needed to track on-hand or dispense data in HPOP

No additional action is needed by pharmacy participants to track on-hand oral antiviral therapy course quantities or dispense data, other than what you currently record in your pharmacy management system. AmerisourceBergen, as the network administrator for the HHS COVID-19 Therapeutic Dispensing Program, reports on-hand or dispense data to HPOP on your behalf.

COVID-19 Treatment Marketing Materials

Let your patients know that you have COVID-19 treatments available at your pharmacy with new print and digital marketing materials. Visit the “Coronavirus” library in [Brand Central Station](#) and [SOCi](#) to access the materials.

Are you interested in dispensing COVID-19 antiviral therapies?

AmerisourceBergen is a network administrator for the HHS COVID-19 Therapeutic Dispensing Program. If your pharmacy would be interested in participating in the antiviral program, please fill out this [brief form](#).

Vaccine updates

IMPORTANT UPDATE: Weekly VaccineFinder inventory reporting began May 1

As of May 1, 2022, providers must report COVID-19 vaccine supply levels at least weekly by close of business on Fridays even if your inventory level has not changed from the prior week. All other provisions regarding data remain unchanged.

Quick tips

1. Make sure you are updating inventory in VaccineFinder regularly.
2. **Providers no longer participating in COVID-19 vaccination must be zeroed out; old inventory numbers can impact performance metrics.**
3. Regular reporting of inventory is part of the COVID-19 Vaccination Program Provider Enrollment Agreement.

Guides for reporting inventory and public display information can be found on the [Provider Resources page](#). If you need support, please contact CARS_Helpdesk@cdc.gov or 1-833-748-1979.

Updated transfer form

The [COVID Product Transfer form](#) has been updated so that it can be used to report both vaccine and therapeutic products received through the Federal Retail Pharmacy Program that are being transferred to another pharmacy. If you have any questions, please let us know at COVIDVaccines@amerisourcebergen.com.

COVID-19 vaccine program: Quarterly Attestations due May 13

All participants of the COVID-19 vaccine Federal Retail Pharmacy Partnership Program who have received any vaccine product will receive an automatically generated quarterly attestation form on Friday, April 29. The forms should be returned no later than May 13.

The mandatory quarterly attestation is necessary to verify the pharmacy's compliance with the requirements of the federal vaccine program. This is a CDC requirement, so all participating pharmacies must e-sign the attestation by May 13.

The email with the quarterly attestation form will be sent to the authorized signer on file on Friday, April 29; please check that email box if it is different from your business email. If there is any reason you can't complete and sign the attestation form or cannot locate the email, please let us know at COVIDVaccines@amerisourcebergen.com.

Surveys, reporting, reminders

NEW survey: Partnering with Long-Term Care facilities

The CDC has asked if any pharmacies participating in FRPP are currently partnering with any Long-Term Care Facilities, or if they would be able to. Please take this [brief survey](#).

Survey: Vaccinating children under the age of 5

CDC is asking that pharmacies indicate their interest in vaccinating pediatric patients under the age of 5. Please respond using this [brief survey](#).

Questions? Continue to work with your Business Coach or Sales Executive if you have questions. Questions can also be sent to COVIDVaccines@amerisourcebergen.com. When emailing COVIDVaccines@amerisourcebergen.com, please include your pharmacy name and NCPDP on all communications. This information will help us expedite our response to you.
